1. Place packet of melts directly on top of oven in warming tray area. DO NOT remove melts from packet! **DO NOT place packet in EASY-BAKE Oven.**

BAKE AND DECORATE BROWNIE POPS!

Bake a Brownie...

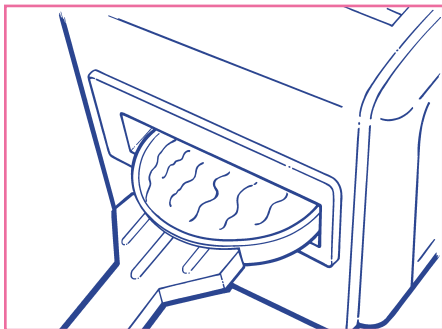

- Preheat your Easy-Bake® Oven for 15 minutes, or ask an adult to preheat the kitchen oven to 375°.
- Spray the pan with non-stick cooking spray, or grease with margarine.

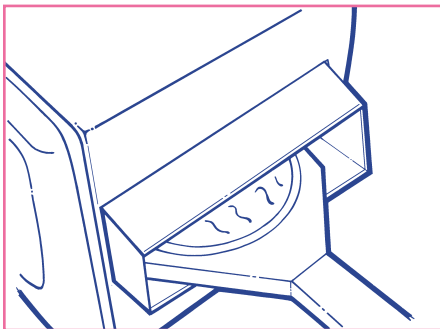

1. Pour contents of brownie mix packet into mixing bowl. Add 2 teaspoons of water and mix with a spoon until smooth.

2. Slowly pour batter into baking pan. Scrape mixing bowl clean and spread batter evenly.

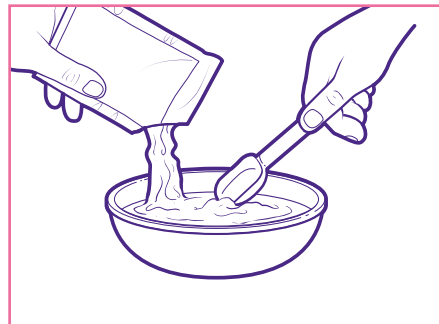

3. Use the Easy-Bake® pan pusher to insert the pan into the Easy-Bake® Oven. Be sure to insert pan far enough so that the metal door closes. Bake in the Easy-Bake® Oven for 12 minutes, or in your kitchen oven for 12 minutes.

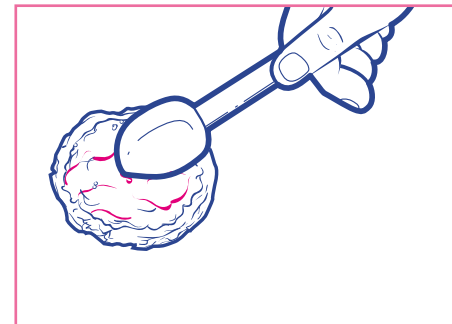

4. When baking time is complete, push pan all the way into the Easy-Bake® Oven cooling chamber with the pan pusher. Allow pan to cool in cooling chamber for 10-12 minutes, then carefully remove baking pan from oven with pan pusher. If you are baking in the kitchen oven, have an adult remove the pan from the oven immediately. Remove brownie from baking pan when cool.

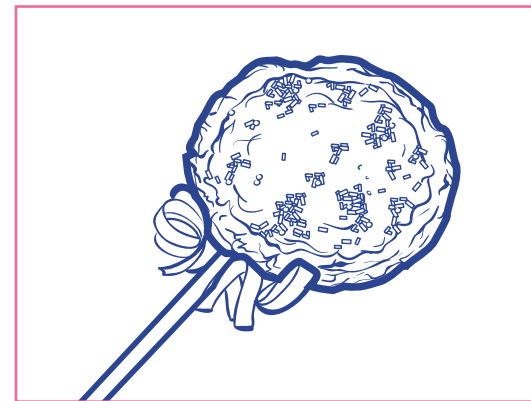

Add Frosting and Sugar Crystals...

1. Pour contents of vanilla frosting mix packet into mixing bowl. Add 1/2 teaspoon of warm water, and stir thoroughly with spoon until smooth. (For thinner frosting, stir in droplets of water to desired consistency.)

2. With a spoon, spread frosting over the top of a brownie. Sprinkle pink or purple sugar crystals on the brownie while the frosting is still moist.

3. Make your brownie pop by carefully placing the lollipop stick into the center of the brownie as shown. Tie on ribbons and serve your pretty brownie treat.

Eat and enjoy!
